# INTRODUCING WORLDPOST SERVICES. NO ONE GIVES YOU MORE WAYS TO GO.

It's true. No other international carrier gives you such a wide range of international mail services and prices.

Where most international carriers offer only two or three services with high and still higher prices, WORLDPOST SERVICES from the United States Postal Service gives you a whole package of eight services that can better meet your needs for speed of delivery while controlling spiraling international mailing costs.

From individual, urgent letters or documents to volume mailings going all over the world, WORLDPOST SERVICES has a service designed to do the job for you. And do it within the time frame and cost

that makes the most sense.

The brief descriptions below give you a quick overview of the full range of WORLDPOST SERVICES that meet your corporate needs. But we've prepared a simple, practical guide that lets anyone in your company instantly select the right service to use for any kind of mail you need to send overseas.

To receive our guide, complete and mail the enclosed reply card. We'll rush it to you by return mail. And we'll also include our current rate information for each service.

A dark red leather suitcase with gold-colored hardware and a handle. The suitcase is closed and shown from a top-down perspective. The text is centered on the front panel.
